

SMITH & BROCK

EXPERTLY SELECTED, PROUDLY DELIVERED

WEEKLY PRODUCT UPDATE - 17/06/19

RAIN! RAIN! RAIN!!!! DRAMATIC SITUATIONS AHEAD!!! BREAKING NEWS!!!

Please see pictures from our contracted farm for cauliflower. We have the same issue with the broccoli. All broccoli crop and cauliflower are now damaged. We will have to find alternative sources and supply demand will put a real stress on buying stock and price will therefore be very expensive.

English asparagus is also affected with the season prematurely ended with rain and cold weather.

English cherries are also in trouble with too much rain and cold weather... the season was slightly ahead with the warm weather of Spring time, but now we fear for the worst! Still, there is more to be worried about with cauliflower and broccoli than we should be about cherries.

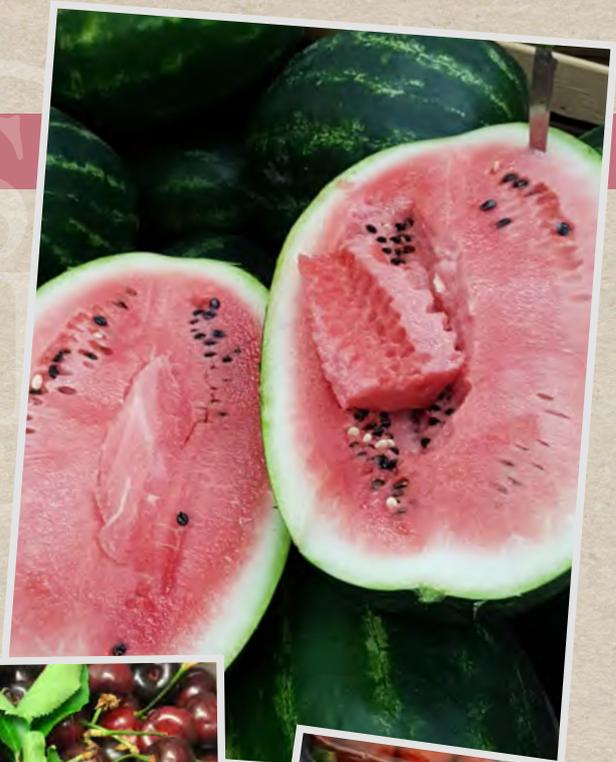

We are not sure what stock we will be getting in the next few days from the market, but just wanted to give you a bit of head's up for now.

FRUIT SELECTIONS

Here is a small selection of in season fruits, recommended for this week!

Italian watermelon torpedo
Cherries
