

SMITH & BROCK

EXPERTLY SELECTED, PROUDLY DELIVERED

WEEKLY PRODUCT UPDATE - 29/07/19

Well, it was only a few days of heat wave but we really had to work hard to get the product nice and cold!

Thanks to our dedicated team of packers and drivers, the products were kept in a cool environment at all times. Easier said than done when you are the driver and stopping every 10 minutes to deliver and opening the van door - You just have to be quick to offload!

This week will be better for business... people don't eat much when it is too hot! Last week was good if you were selling ice creams and cold drinks!

VEG SELECTION OF THE WEEK

Marrow is still a great product to use and so underutilised! New season garlic is now in and so are shallots which were so short lately... it was actually the first year we even had shallots coming from Australia!!

All beetroots are all very nice, red, candy and golden makes great salads once nicely roasted!

Corn on the cob are just outstanding and UK season should not be far from starting.

Some other nice produce include grillote and scallion onions, pointy peppers, runner beans, kohlrabi, berlotti beans and Swiss chard.
