## WEEKLY PRODUCT UPDATE - 25/11/19

**Can you smell Christmas! We can definitely smell it here! Getting busier by the day!**

Once again, at this busy time, don't forget to place all your prep fruit and veg orders well in advance of 2pm for the next day, if possible, to ensure we can get it done for you on first delivery.

Some great winter produce available, plenty of different pumpkins and squashes, many different types of cabbages, not to forget the must have Brussels sprouts! Let's also talk about carrots – French are really making a big thing about carrots and you would understand why once you try the fabulous sand carrots!

Globe artichokes are now coming from Spain, a bit pricey though, but very nice quality.

French lettuce such as oak, curly endive, lollo are now all French and nice quality (big heads)... How about some chicory from Italy, castel franco now in season as well as tardivo and trevise... see pictures for a nice selection!
